## STUDENTS' EXCHANGE WITH THE IESO QUERCUS

I am aware that through this project, «Popular traditions beyond my country», we, the coordinator teachers, brought our contribution in creating opportunities for students to learn and appreciate another people, their cultural differences, to use a foreign language.

The exchange had a strong impact in our school life and became news in the local and regional newspapers, in our school magazine.

In spite of the different cultural background, all the students wide opened their hearts and home for a teenager coming from thousands miles away, for whom he became host for a week.

We don't know if these will turn in a life-time friendship, but it is for sure, none of us will forget the time spent, both in Spain, or in Romania.

We send you a big hug and hope to see you soon,

Polixenia Popescu  
CNP CONSTANTIN BRATESCU  
Romanian coordinator of the project
